Moduli PUBLIC POLICY	Settore/i SECS-P/03	Tipo LEZIONI	Ore 42	Docente/i THOMAS IVAR RENSTRÖM
-------------------------	------------------------	-----------------	-----------	--------------------------------------

Obiettivi di apprendimento

Conoscenze

The module provides students with knowledge of the main issues in the field of public economics.

Upon completion of the module students should:

- understand both the positive and normative aspects of taxation and public expenditure policies;
- have obtained an understanding of second-best analysis;
- have sufficient familiarity with the literature to identify open questions for writing a dissertation on their own.

Modalità di verifica delle conoscenze

The written take-home exam will test students' knowledge and critical understanding of the material covered in the module.

Capacità

The module provide students with analytical skills in the field of public economics.

Upon completion of the module students should:

- be able to apply knowledge of public economics to practical problems;
- solve problems in public economics.

Modalità di verifica delle capacità

The written take-home exam will test students' analytical and problem-solving skills.

Prerequisiti (conoscenze iniziali)

Principles of Economics

Principles of Mathematics

Indicazioni metodologiche

A combination of lectures, workshops and guided reading will contribute to achieving the learning outcomes.
