Obiettivi di apprendimento

Conoscenze

Acquiring the fundamental notions of what a legal system is, how it functions, what comparative legal analysis entails, the fundamental principles of european law and its relationship with member states, the differences between common law and civil law.

Gain fundamental knowledge of contract law, in a comparative perspective, primarily focusing on the Italian, French, German, British and US legal systems.

Acquire analytical skills to understand legal texts and to identify legal issues and solve them, based on the knowledge possessed.

Modalità di verifica delle conoscenze

*Written exam based on a open question and one issue spotter.

In the latter the candidate needs to identify the legally relevant facts provided in a short account, determine applicable law and effectively apply it to solve the issue at hand.

* As long as the exam will be held remotely, the open question will be made in a second part of the test, as an oral exam, to which only students who passed a minimum score in the issue spotter will be admitted.

Capacità

Knowledge of the fundamental legal notions and methodologies presented.

Analytical skills to determine (i) what facts are relevant, (ii) what legal rules apply and, (iii) what conclusions this leads to.

Modalità di verifica delle capacità

written exam

Indicazioni metodologiche

study course books and materials provided.

learn to read legal texts by looking into civil codes cited during classes
