Obiettivi di apprendimento

Conoscenze

The aim of the course is to provide students with an in-depth and critical knowledge of the European rules on company law, trade-mark law and competition Law and with an introduction to the Banking Union, to the Capital Markets Union and to the European rules on sustainable growth. If students complete the course successfully, they should be able to explain the main concepts that underpin European economic law and to comprehend the policy issues that arise regarding the harmonization of company law and the regulation of the European companies, as well as European competition law and trade-mark law.

Students do not need a specific legal or economic background.

Indicazioni metodologiche

Professor will present the different issues. Students attending the classes are requested to actively participate to the discussion. They can prepare a presentation on a subject addressed during the lessons. The presentation will be part of the final examination (50% of the final grade). Classes will be held in English.
